System Requirements

Requirements (Wired Notebook Adapter)

- Personal computer with an available PC Card Type II slot supporting 32-bit CardBus standard
- Microsoft Windows® 98, Windows 98 SE, Windows Millennium Edition (Windows Me), Windows 2000* Professional, Windows XP Professional, or Windows XP Home Edition

* Setup features and functionality are limited on Windows 2000.

Additional Requirements (Setup Wizard and Broadband Network Utility)

- Microsoft Internet Explorer 5.0 or later; setup will install Internet Explorer 6.0 browser components if necessary, but will not displace your primary browser
- 28 MB of available hard-disk space if you already have Internet Explorer 5.5 or 6.0
- 4x or faster CD-ROM drive
- VGA or higher-resolution monitor

Recommended

- 3.5” high-density disk drive
- VGA or higher-resolution monitor
- Microsoft Mouse or compatible pointing device

Note:
Not all Internet service providers (ISPs) allow the sharing of a broadband connection. Please check with your ISP.

The easy way to add a notebook computer to your Ethernet network

The Microsoft 10/100 Ethernet Notebook Adapter makes it easy to add a notebook computer to the network in your home or small office.

- Easy-to-use setup wizard helps you add a notebook computer to your network in minutes.
- Enables your notebook computer to share a broadband connection, files, printers, with other computers on your Ethernet network (Base Station sold separately).
- Supports 10 Mbps Ethernet and 100 Mbps Fast Ethernet networks.
- Includes the Microsoft Broadband Network Utility allowing you to easily monitor your network status.
- Fixed-port construction reduces the danger of damaging fragile connectors.
- lets you play games with multiple players on the Internet and within your own network.
- Supports hot swapping.

32-bit PCMCIA Type II CardBus.
